

CONTROL YOUR BUSINESS

VERSATILE

Outstanding performance and durability. Flexibility to fulfill any job.

DURABLE

Use anywhere, at any location, and on any type of job site.

FLEXIBLE

Unlimited concrete applications and specialised options.

CONTROL

Quality, quantity, and schedule.

PROVEN	The M Series is the mixer that built the market for volumetrics in the U.K. for more than 30 years.
SUPPORT	Backed by our two depot locations in Stockport and Gloucester, a Performance Guarantee, 24-Hour Parts service, and Cemen Tech CONNECT, an industry-exclusive live remote video support tool.
OPTIONS	Various options available to fulfill any job — pneumatic fill, dry colour, fibre chopper, latex, and fast-setting concrete.
UNLIMITED APPLICATIONS	Wide range of applications, residential, screed, soil stabilisation, infrastructure repair, remote work, collect concrete, pumping, industrial/commercial. Don't see your application? Ask us, we can build a mixer to do it!

Ask Us About Our ACCU-POUR™ Option For The M Series Mixer.

The SMART Solution For The Volumetric Industry.

SPECIFICATIONS	Carrying Capacity*	Water Tank	Cement Bin	Production Rate*
M15	2.5 m ³	871 L	1 m ³	11.5 m ³ /hr
M30	4-5 m ³	984-1628 L	1.5-2 m ³	23 m ³ /hr
M30X	6.5-8 m ³	1628-1930 L	2.5-3.5 m ³	23 m ³
M60	6.5-8 m ³	1628-1930 L	2.5-3.5 m ³	46 m ³ /hr
M90	8-9.5 m ³	1930 L	3.5-4 m ³	69 m ³ /hr
MCD8MX-150	8 m ³	1628-1930L	3.5	46 m ³ /hr
MCD10MX-150	10 m ³	1628-1930L	3.5	46 m ³ /hr

STANDARD FEATURES

Two-Speed Cement Bin

Adjustable cement discharge allows an operator to easily switch between concrete mixes and flowable fill applications. (Excludes M15, M30, M30X)

Sand, Stone & Cement Bin Vibrators

Ensure materials are delivered at a consistent rate with pre-programmed, auto-adjustable vibrators. (Excludes M15, M30, M30X)

Dual Auger Cement Metering

Take the guesswork out of pouring with consistent mix designs within +/- 1 per cent every time.

360 Swivel

Rotate the swivel a full 360 degrees to pour concrete in any direction without repositioning the unit.

Digital Counter

Operators can calculate the meters poured and track the RPM of the conveyor belt with the Red Lion Digital Counter.

High & Low Flow Admix Tank with Flow Meters

Operator control is simplified with automated admix tanks to ensure the exact amount of admixture is used every time.

Heavy Duty Roller Chain

Engineering-class roller chain with 1 1/4 inch angle-iron cross members that supports a vanner edge aggregate conveyor belt and protects the chain from debris to ensure accurate aggregate delivery.

OPTIONS

More options available, contact your Cemen Tech sales representative for details.

Upsize Package

Increase your concrete production with the same unit when you opt for a larger aggregate bin, water tank, and cement bin.

Trailer

Eliminate the need for another chassis by mounting a mobile mixer on a trailer with an external engine.

Power Chute Lift

Operators can more accurately deliver concrete to finishers with the ability to adjust the angle of the discharge chute independently of the mix auger angle with a dual hydraulic chute.

Wireless Remote

Operators can move about the job site while maintaining control of the mixer.

Colour System

Need colour? No problem — a hopper provides the ability to introduce colour pigments into concrete for multiple applications.

Ticket Printer

All materials are metered and tracked throughout the pour to generate an accurate batch ticket.

Additional Admix Systems

Add another admix system for mix designs requiring more than two admixes per job.

Spray-In Bin Liner

Get extra protection and seal the inside of the aggregate bin with a heavy duty polyuria protective coating.

AP1/AP2

A digital display reports the amount of sand, stone, cement, water and admix used in the mix. Upgrade to the AP2 to store and download mix design information for repeatability.

Fibre Chopper

Introduce proportioned fiber in to the mix up to 18oz per minute.

** Measurements provided are approximations based on materials and mix design.*

Volumech is the exclusive dealer for Cemen Tech in the U.K.
